   a. Tuition proposal request
      1. First will find out what increased expenses will be and add to that 1% or 2% and earmark that percentage for academic affairs support. 1% raises approximately $272,000.
      1. Possible uses for the funds as discussed by PLC were to fund library updates (over 2 years) or to fund a Student Success Center which would be an on-going budget item.
      2. Colleges are asked to determine what assets we have that would contribute to a Student Success Center, and to decide what we really need and quantify and justify it as to how it would support student credit hours. The tuition committee will meet next week, so Dr. Dearth has to have input by the end of this week. Suggestion was made to have a 2% increase so that the Student Success Center could be funded as well as funding other items.
