

**Fall 2023 and Spring 2024 College of Technology Open House
and Career Expo Scholarship Vouchers and Door Prizes**

There were approximately \$20,000 in scholarship vouchers and other door prizes available for Fall and Spring 2023-24 Open House and Career Expos. All students registered for either the in-person open house or the virtual open house had access to the virtual open house website, which is where students qualified to receive these rewards.

To qualify for one or more of these scholarship vouchers or door prizes noted below, students accessed *Virtual Open House and Career Expo* website and participated in Activity 1, 2, and 3. Participation was documented by completing related feedback sheets. Each feedback sheet completed in a quality manner (i.e., complete and answered appropriately) served as a ticket used for selecting door prize and scholarship recipients. Several scholarships and door prizes were not awarded due to lack of qualifying entrants.

Students, as well as teachers and/or counselors associated with winning students will be notified by email in early May 2024 about these awards.
