If selection is "Deletion" complete questions 2, 3, 4, & 5, then complete signatures.

Originating Departments(s): After completing this form, in its entirety, please upload it to the SharePoint, within the appropriate College folder, "Preliminary Legislation", to allow for review and questions. Any modifications should be saved as "original file name.v2.docx" and uploaded as well.

Following final College Curriculum Committee approval, Please apply the appropriate signatures, and send to your College Admin.

Each college curriculum representative will notify their respective college and department(s) of the completion of the approval process. If COCAO/KBOR approval is required, questions should be directed to the Provost's administrative officer at x4113.

1. Description of Change:

   This revision updates and expands the list of electives for the Women's and Gender Studies minor program.

2. Rationale for change, including changes to curriculum objectives:

   Due to curricular changes in other major programs, Women's and Gender Studies regularly updates its curriculum.

3. Will this change affect any education majors? No
   If "yes," this request will need to have the approval of the Council for Teacher Education.

4. Is this **Revision** related to, and/or may affect, any other department/college/unit curricula or programs at PSU? ***Whether a "yes" or "no" response, please provide an explanation or documentation of any discussions (e.g. copies of emails, memos, etc.) that have occurred.***

   This revision may result in enrollment increases in elective classes.

5. Is this **Revision** related to, and/or affect, any degree program or minor/emphasis/certificate at any other Regent university? ***Whether a "yes" or "no" response, please provide an explanation.***

   No. Women's and Gender Studies at Pittsburg State is aligned to national standards and comparable to Women's and Gender Studies programs at other Regent's institutions.

6. Does the revision meet University catalog definitions for majors, minors, emphases and certificates as appropriate? **Yes**

7. Are additional resources required (e.g. library/multimedia resources, technology, space, major expense, etc.)?

   No

8. Will any additional student fees be required (e.g. equipment, clothing, travel, licensing, etc.)? **Select One**
   If "yes," complete the course fee form on the Provost's website, it will need to gain approval of the President's Council.

Browyn,
Thank you for your email. I have checked with Dr. Tseng, our Art Historian. She indicates the following and I concur.

"The 3 courses listed should be included in Women's and Gender Studies. Each of them addresses issues regarding women artists, women's training in art and representations of women in the history of art. At least 50% of the content of each course deals with women."

"Please note that Art 289 Introduction to Art History, II, and Art 688 History of Modern Art also meet the criteria for inclusion in the WGS program."

Other questions, please let me know,

Jamie

Subject: WGS Curriculum Changes

Good afternoon,

Women's and Gender Studies is revising its curriculum and is writing to you to request your assistance with updates and/or changes to the classes from your area that are electives in the WGS curriculum. In particular, the program wishes to identify and include new class offerings taught by faculty members in your area. The criteria for inclusion as an elective remains the same: at least 50% of the content must deal with women and gender (for WGS), or alternatively women's health, broadly defined (WH), with that content viewed through a feminist lens. Also, the program can/does add classes on a per semester basis.

The classes that are currently included from your area are:

WGS

ART-178 Introduction to the Visual Arts (3 hours)
ART-288 Introduction to Art History, I (3 hours)
ART-689 Contemporary Issues in Art (3 hours)

WH

Hi Browyn,

Thank you for your email. I spoke with faculty, and we have one more course that could be an option for WGS. That course is as follows:

FCS 430 Family Resource Management is taught from a feminist lens and has more than 50% women-centered content.

If you need anything additional, please let me know.

Take care,
Cherona

Browyn,
Thank you for your email. I have checked with Dr. Tseng, our Art Historian. She indicates the following and I concur.

"The 3 courses listed should be included in Women's and Gender Studies. Each of them addresses issues regarding women artists, women's training in art and representations of women in the history of art. At least 50% of the content of each course deals with women."

"Please note that Art 289 Introduction to Art History, II, and Art 688 History of Modern Art also meet the criteria for inclusion in the WGS program."

Other questions, please let me know.

Good afternoon,

Women's and Gender Studies is revising its curriculum and is writing to you to request your assistance with updates and/or changes to the classes from your area that are electives in the WGS curriculum. In particular, the program wishes to identify and include new class offerings taught by faculty members in your area. The criteria for inclusion as an elective remains the same: at least 50% of the content must deal with women and gender (for WGS), or alternatively women's health, broadly defined (WH), with that content viewed through a feminist lens. Also, the program can/does add classes on a per semester basis.

The classes that are currently included from your area are:

WGS

ART-178 Introduction to the Visual Arts (3 hours)
ART-288 Introduction to Art History, I (3 hours)
ART-689 Contemporary Issues in Art (3 hours)

Hi Browyn,

Thank you for your email. I spoke with faculty, and we have one more course that could be an option for WGS. That course is as follows:

FCS 430 Family Resource Management is taught from a feminist lens and has more than 50% women-centered content.

If you need anything additional, please let me know.

Take care,
Cherona

Originating Departments(s): After completing this form, in its entirety, please upload it to the SharePoint, within the appropriate College folder, "Preliminary Legislation", to allow for review and questions. Any modifications should be saved as "original file name.v2.docx" and uploaded as well.
Following final College Curriculum Committee approval, please apply the appropriate signatures, and send to your College Admin.

1. Purpose/Justification for Minor/Emphasis/Certificate:
   This is an updated partnership with Kansas City University. This is a mutually agreed upon PSU curriculum between the two universities. This will provide qualified students the opportunity to complete the B.S. & the D.O. or DMD degree in 7 years instead of 8.

2. Is this new minor/emphasis/certificate proposal related to, and/or may affect, any degree program or minor/emphasis/certificate at any other Regent university? ***Whether a "yes" or "no" response, please provide an explanation.***
   No, this emphasis is a unique partnership between PSU and Kansas City University.

3. Is this new minor/emphasis/certificate proposal related to, and/or may affect, any other department's/college's/unit's curricula or programs at Pittsburg State University? ***Whether a "yes" or "no" response, please provide an explanation. Attach documentation of any discussions (e.g. copies of emails, memos, etc.) that have occurred.*** No

   Pre-medical and pre-dental students already enroll in other department's listed courses in this updated partnership.

4. Will this affect any education majors? No
   If "yes," this request will need to have the approval of the Council for Teacher Education.

5. Is this major related to, and/or may affect, any other department/college/unit curricula or programs at PSU? ***Whether a "yes" or "no" response, please provide an explanation or documentation of any discussions (e.g. copies of emails, memos, etc.) that have occurred.*** No

   Pre-medical and pre-dental students already enroll in other department's listed courses in this updated partnership.

6. Is this major related to, and/or affect, any degree program at any other Regent university? No
   Whether a "yes" or "no" response, please provide an explanation.
   No, this emphasis is a unique partnership between PSU and Kansas City University.

7. Does the new major meet University catalog definitions as appropriate? ***Definitions can be found on the Faculty Senate website.*** Yes

8. Are additional resources required (e.g. library/multimedia resources, technology, space, major expense, etc.)? No

9. Will any additional student fees be required (e.g. equipment, clothing, travel, licensing, etc.)? No
   If "yes," complete the course fee form on the Provost's website, it will need to gain approval of the President's Council.

10. What additional costs will be required for revising this curriculum (e.g. staffing, equipment, etc.)? No

11. Describe the program assessment plan:
    a. Enrollment targets = **10-35 per year**
    b. Outcome expected and process to evaluate =
       We anticipate an increasing number of applicants to this program over the next several years.
    c. Plan to abandon if enrollment targets not met =
       This partnership shall be in effect for a term of 5 years from the date of execution and shall be reviewed by both Parties at the end of such term and may at that time be updated and signed for an additional period of time to be specified in the document.

Questions for certificate only: If you have questions concerning these questions, contact the Financial Aid Office, 4240. ***If "yes," to both questions, it is the department's responsibility to send a copy of this legislation form to the Director of Admission and Financial Assistance to initiate Department of Education approval.***

1. Are students pursuing only this certificate eligible for federal financial assistance based on federal guidelines? **Select One**
2. Does the course content contained within this certificate provide relevance to employment opportunities or meet professional objectives for the student? **Select One**

Partnership Agreement

between

Kansas City University

And

Pittsburg State University

Based upon a mutual respect for the integrity of parallel academic programs and in an effort to better serve students intending to pursue a career in osteopathic or dental medicine, Kansas City University (hereinafter referred to as "KCU") and Pittsburg State University (hereinafter referred to as "PSU") hereby enter into this Partnership Agreement (hereinafter referred to as the "Partnership Agreement") for the *"PSU-KCU: Accelerated Medical Path Undergraduate Program (AMP-UP)"* (hereinafter referred to as "Program"). KCU and PSU may be individually referred to as a "Party" and collectively as the "Parties."

This Agreement will define the requirements and special terms necessary for admission to the Program, progression and completion of the Program before matriculating to KCU, admission into KCU, and special criteria for the awarding of the bachelor's degree to participating students.

General Statement

The Parties wish to establish a Partnership Agreement to foster student success at both institutions. It is hoped that this Partnership Agreement will result in an increased number of qualified students attracted to PSU and KCU. In addition, the Program will provide qualified students the opportunity to complete the bachelor's degree and the doctor of osteopathic medicine or doctor of dental medicine degree in seven years instead of eight.

Program Description

A cohort of up to a total of thirty-five (25 students for the KCU College of Osteopathic Medicine and 10 students for the KCU College of Dental Medicine) mutually agreed upon candidates will be selected yearly, who upon successful completion of an established and mutually agreed upon PSU curriculum and having demonstrated mutually agreed upon academic performance, and having met all mutually agreed upon Program requirements to be eligible for an "automatic interview", will be granted an interview for conditional acceptance to the Kansas City University College of Osteopathic or Dental Medicine. Furthermore, the candidate's successful completion of the Program will be included with favor in KCU's consideration for conditional acceptance after the interview.

Selection of Participants

1. All students entering the Program each year will be selected through a joint selection process by PSU and KCU.

2. Students may be selected to the Program during their senior year of high school and begin the Program as incoming freshmen at PSU or;
3. Students may be selected to the Program after matriculation to PSU but, no later than completion of one (1) semester of college coursework after graduating from high school.
4. The Program selection process will include a review of:
   - high school academic performance:
     - minimum GPA of 3.6 (3.5 in Math, Sciences, and Language Arts courses)
     - minimum ACT score of 26;
   - if appropriate, college freshman academic performance
   - extracurricular activities;
   - community service; and
   - Desire to pursue a career in osteopathic or dental medicine.

Student Progression in Program

- In order to remain and progress in the Program:
  - Students must maintain at PSU an overall GPA of 3.5 and a science and math coursework GPA of 3.5, both on a 4.0-point scale. If a student's academic performance drops below these minimum requirements, the student will be placed on Program probation for the next semester but, may still remain in the Program. If the student fails to improve their academic performance enough that semester to enable the student to meet the Program's minimum requirement, the student will be disqualified from the Program. If the student is successful in improving their academic performance enough that semester to enable the student to meet the Program's minimum requirements, they may continue in the Program. They will remain on probationary status and if they fail to maintain the Program's minimum academic requirements for a second time, they will be disqualified from the Program; AND
  - Students in the Program must take and complete the following "Core Academic Requirements" with a grade of "C" or higher at PSU:

Biological Sciences	12 hours
Chemistry (General and Organic with labs)	16 hours
Biochemistry	3 hours
Physics	8 hours
English Composition/Literature	6 hours

AND,

Additional PSU science coursework in relevant topics agreed to by KCU

(e.g. Anatomy, Physiology, or other science electives)

- In addition:
  - Students in the Program are required to stay "on schedule" by carrying a course load expected to result in successful completion of 90 credit hours within three (3) consecutive academic years;
  - Students in the Program will be expected to participate in recommended co-curricular and extra-curricular activities designed to support development of professionalism and social and interpersonal skills, and to help prepare students for successful matriculation into KCU's medical and dental programs; and
  - Students in the Program will be expected to follow the Program's "code of conduct" agreed upon by PSU and KCU. Failure to comply with the Program's "code of conduct" may disqualify the student from continuing in the Program

Application for conditional acceptance to KCU

Students will be eligible to apply for conditional acceptance to KCU after successful completion of the following:

- 45 college-level credit hours
  - Including 30 college-level credit hours in PSU face-to-face or hybrid courses following their high school graduation
  - All pre-requisite courses included in the Program's "Core Academic Requirements" are required to be taken at PSU (exceptions at the discretion of PSU & KCU)
- Minimum GPA of 3.5 on all college-level courses completed at PSU
  - (Minimum GPA of 3.5 in Sciences and Math)
- Application process will include two letters of recommendation:
  - One letter from a supporting physician or dentist, and
  - One letter from the PSU Program Director(s) or the student's PSU pre-med or pre-dental advisor supporting the student's commitment, maturity, and preparedness for early entry into the KCU College of Osteopathic Medicine or College of Dental Medicine.

Interview for Conditional Acceptance to KCU

Students in the Program, upon successful completion of application to KCU, will be granted an interview for conditional acceptance to KCU.

Decisions regarding conditional acceptance will be sent to applicants following their interview. If selected for conditional acceptance to KCU, applicants will be notified and advised of additional requirements. There is no obligation nor shall this Partnership Agreement be interpreted to be a requirement that there is any obligation that KCU is required to accept any student in the Program.

KCU may reject any PSU student, including students in the Program, for any reason that does not violate applicable law.

Each student selected for conditional acceptance to KCU through the Program must complete the AACOMAS or the AADSAS application no later than September 30th of their junior year at PSU

- All portions of the AACOMAS and AADSAS application must be completed except the following:
  - No supporting physician or dentist reference letter required
  - The MCAT or DAT will not be required for conditional acceptance to KCU (but required for KCU matriculation, as mentioned below) through the Program.

Following the Conditional Acceptance

Students will continue their studies at PSU to successfully complete the required 90 college credits, including all pre-requisite courses. In addition:

- Students must remain in 'good standing' with PSU
- Students must maintain a GPA of 3.5 (Minimum GPA of 3.5 in Science coursework)
- Students will be expected to continue to follow the Program's "code of conduct" agreed upon by PSU and KCU. Failure to comply with the Program's "code of conduct" may disqualify the student from continuing in the Program
- After satisfying all Program requirements, students will be eligible to enroll at KCU

*If a student in the Program is not selected for matriculation to KCU, they are eligible and encouraged to go through the regular application process after completing their degree. However, all regular admission procedures will be in place including the requirement of the MCAT or DAT and additional physician or dentist reference letters.

MCAT and DAT

The MCAT or DAT will not be required for conditional acceptance to KCU through the Program. However, students will be required to take the MCAT or DAT prior to matriculation to KCU. Students should submit their scores to AACOMAS or AADSAS respectively. The student's scores will be used for data collection and comparison purposes only and will not be considered in the admissions decision.

Completion of Bachelor's Degree

After successful completion of Year one in the KCU College of Osteopathic Medicine or College of Dental Medicine, the KCU credits earned will be transferred to PSU as retro-credit to count toward completion of the student's Bachelor degree.

Upon graduating with their bachelor's degree, an official copy of the student's undergraduate transcript must be provided to the KCU Registrar's Office.

Student Tuition and Fees

Students in the Program shall be responsible to KCU and PSU, individually, for the tuition and fees for the credit hours taken at each institution. Nothing in this Partnership Agreement shall be interpreted to mean the either of the Parties have waived applicable tuition and fees due for the courses provided.

Mutual Promotion of the Program

PSU and KCU both agree to encourage qualified students to participate in the Program through advertisement and dissemination of information.

PSU will agree to appoint a PSU Program Director(s) and KCU will agree to appoint a KCU Program Director.

The PSU Program Director(s) will maintain a list of PSU students in the Program and will periodically meet with the KCU Program Director to review each student's progression and status in the Program

The PSU Program Director(s) and the KCU Program director will work together and with their respective faculty and staff members and student organizations to facilitate opportunities for the PSU students in the Program to engage with KCU students, faculty, and staff in activities (e.g. team-building and IPE, leadership development, community service, professionalism, research, social development, etc.) in an effort to help prepare the students for successful matriculation to KCU and for their professional careers.

Both PSU and KCU agree to promote the Program in their recruitment activities and literature and to refer prospective students, when appropriate, to the other's Office of Admissions.

General Terms

- This agreement shall be in effect for a term of five (5) years from the date of execution and shall be reviewed by both Parties at the end of such term and may at that time be updated and signed for an additional period of time to be specified in the updated document. Continuation of the Program will be based on students' successful completion of the Program, Program viability, and other relevant factors determined by PSU and KCU.
- This agreement, may be cancelled at any time with 90 days written notice, by either Party, providing that any student in the Program conditionally accepted to KCU at the time of cancellation has the right to continue in the Program, abiding by all rules mentioned above.

- The terms of this agreement may be modified or amended upon written consent of both Parties. These changes shall be appended to the original Agreement with the effective date.
- The waiver by either Party of a breach of any provision of this Partnership Agreement by the other Party shall not operate or be construed as a waiver of any subsequent breach by such Party.
- In the event that any one or more of the provisions of this Partnership Agreement should be invalid, illegal or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions contained herein shall not in any way be affected or impaired thereby.
- This Partnership Agreement constitutes the entire agreement between the Parties with respect to the subject matter hereof and supersedes all prior agreements and understandings, both written and oral, between the Parties with respect to the subject matter hereof.

IN WITNESS WHEREOF, the Parties hereto have executed this Partnership Agreement by proper persons thereunto duly authorized.

Student Agreement and Code of Conduct

Please initial next to each paragraph to indicate your understanding

_____ I understand that Pittsburg State University (hereinafter referred to as "PSU") has a partnership agreement with Kansas City University (hereinafter referred to as ("KCU") to offer a limited number of qualified and selected PSU students the opportunity to participate in the PSU-KCU: Accelerated Medical Path Undergraduate Program (hereinafter referred to as ("*Program*").

I also understand that the *Program* is designed to provide qualified and selected PSU students the opportunity to complete their Bachelor's degree and their Doctor of Osteopathic Medicine (D.O.) degree or Doctor of Dental Medicine (DMD) degree in seven years instead of eight years.

I further understand that students who successfully progress in the *Program* and successfully complete application to KCU will be granted an interview for early conditional acceptance to KCU and, while KCU is under no obligation to accept students that have been admitted to or successfully progressed in the Program, successful progression in the *Program* will be included with favor in KCU's consideration for conditional acceptance to KCU after the interview.

My signature on this document signifies my desire to participate in the *Program*, and my understanding and acceptance of the terms, conditions, and code of conduct associated with the *Program*.

_____ I agree to abide by the policies of PSU as well as the policies set forth by the *Program*. If I am subject to disciplinary action, participation in the *Program* may be reconsidered. Should a situation arise in which continued participation in the *Program* is questionable, final decisions will be made by the PSU Provost and Vice President of Academic Affairs, in consultation with the PSU *Program* Director and the KCU *Program* Director.

_____ I will maintain a professional demeanor toward all members of the *Program*, including students, faculty, and staff, by showing compassion, respect, and appropriate maturity at all times. Students in the *Program* must abide by the highest integrity, honesty, and personal conduct standards. Failure to do so may result in disciplinary action, up to and including immediate dismissal from the *Program*.

_____ I understand that I am responsible for being an upstanding citizen and student. This includes but is not limited to, participating in events associated with the *Program*, such as volunteering in community activities and mentoring other students. Therefore, I agree to exhibit behavior at all times that is representative of a PSU student. Failure to do so may result in disciplinary action, up to and including immediate dismissal from the *Program*.

_____ I understand that I must comply with all academic, professional, and ethical standards, laws, and the *Program* Code of Conduct. This includes, but is not limited to, compliance with all conduct standards and procedures put forth by PSU, PSU faculty and staff, and the *Program*. Unethical disclosure of privileged information or violation of these standards, or laws may result in disciplinary action, up to and including immediate dismissal from the *Program*.

_____ I understand that removal from the *Program* may result in the loss of any scholarships associated with the *Program* and restrict the student from enrolling in certain PSU courses.

_____ I understand that the *Program* is designed to provide academic, cultural, and community experiences to high-achieving students who are committed to academic success, and completing the *Program* will require a significant commitment of time and effort on my part.

_____ I understand that if my overall GPA or science GPA falls below 3.5, I will be placed on academic probation and given the following semester to raise my overall and science GPA back up to 3.5. During this time, I will participate in the *Program*. If, however, I am unable to raise my overall GPA or science GPA to 3.5 after the following semester, I will be disqualified from the *Program*. I also understand that if I do raise my overall GPA or science GPA to 3.5 after the following semester I will remain in the *Program* on probationary status and if my overall GPA or science GPA falls below 3.5 a second time, I will be disqualified from the program.

_____ I understand that the MCAT or DAT will not be required for conditional acceptance to KCU through the *Program*. However, students will be required to take the MCAT or DAT prior to matriculation to KCU. Students should submit their scores to AACOMAS or AADSAS respectively. The student's scores will be used for data collection and comparison purposes only and will not be considered in the admissions decision.

_____ I understand that if I receive a "fail" grade in any course in the *Program* curriculum, I will be disqualified from the *Program*.

_____ I understand that the *Program* curriculum includes "Core Academic Requirement" courses and other selected relevant science courses which must be

successfully completed with a grade of "C" or higher in order to progress in the *Program*

_____ I understand that it is an expectation that all students in the *Program* check their PSU email accounts daily. I am also responsible for thoroughly reading all emails from the *Program* administrators because updates and announcements are often time-sensitive. In addition, I must update my contact information as often as necessary (mailing address, telephone numbers, etc.).

_____ As a member of the *Program*, I have access to a PSU advisor. I am responsible for filling out the necessary academic paperwork each semester, scheduling meetings with my advisor, and meeting required deadlines to ensure I can enroll in the classes I need.

_____ I understand that if I want to add or drop a class at any point, I will first discuss this with my PSU advisor to ensure that my educational plan remains intact and, that I am progressing toward successful completion of all PSU and KCU requirements.

_____ I understand that I may request my removal from the *Program* by meeting with my advisor and submitting a formal request stating my intent to withdraw.

_____ I understand that my failure to comply with any of the guidelines in this document could result in my dismissal from the *Program*.

Revision **Emphasis**

Enter Name of Program: BS in Biology with an Emphasis in Pre-Med/Dental/Optometry/Vet/Chiropractic

If selection is "Deletion" complete questions 2, 3, 4, & 5, then complete signatures.

Originating Departments(s): After completing this form, in its entirety, please upload it to the SharePoint, within the appropriate College folder, "Preliminary Legislation", to allow for review and questions. Any modifications should be saved as "original file name.v2.docx" and uploaded as well.

Following final College Curriculum Committee approval, Please apply the appropriate signatures, and send to your College Admin.

Each college curriculum representative will notify their respective college and department(s) of the completion of the approval process. If COCAO/KBOR approval is required, questions should be directed to the Provost's administrative officer at x4113.

1. Description of Change:

   Changing General Chemistry 1 (CHEM 215/216) from a required general education class to a required part of the major. Also cleaned up language for Biology elective courses BIOL 402/602.

2. Rationale for change, including changes to curriculum objectives:

   We can no longer require specific general education classes.

3. Will this change affect any education majors? No
   If "yes," this request will need to have the approval of the Council for Teacher Education.

4. Is this **Revision** related to, and/or may affect, any other department/college/unit curricula or programs at PSU? ***Whether a "yes" or "no" response, please provide an explanation or documentation of any discussions (e.g. copies of emails, memos, etc.) that have occurred.***

   No, this is an internal change

5. Is this **Revision** related to, and/or affect, any degree program or minor/emphasis/certificate at any other Regent university? ***Whether a "yes" or "no" response, please provide an explanation.***

   No, this is an internal change

6. Does the revision meet University catalog definitions for majors, minors, emphases and certificates as appropriate? **Yes**
7. Are additional resources required (e.g. library/multimedia resources, technology, space, major expense, etc.)?
   No
8. Will any additional student fees be required (e.g. equipment, clothing, travel, licensing, etc.)? **No**
   If "yes," complete the course fee form on the Provost's website, it will need to gain approval of the President's Council.
9. What additional costs will be required for revising this curriculum (e.g. staffing, equipment, etc.)?
10. Describe the program assessment plan (for new programs only):
    a. Enrollment targets =
    b. Outcome expected and process to evaluate =
    c. Plan to abandon if enrollment targets not met =

Questions for certificate only: If you have questions concerning these questions, contact the Financial Aid Office, 4240. ***If "yes," to both questions, it is the department's responsibility to send a copy of this legislation form to the Director of Admission and Financial Assistance to initiate Department of Education approval.***

1. Are students pursuing only this certificate eligible for federal financial assistance based on federal guidelines? **Select One**
2. Does the course content contained within this certificate provide relevance to employment opportunities or meet professional objectives for the student? **Select One**

Revision **Emphasis**

Enter Name of Program: BS in Biology with an Emphasis in Pre-Physical Therapy

If selection is "Deletion" complete questions 2, 3, 4, & 5, then complete signatures.

Originating Departments(s): After completing this form, in its entirety, please upload it to the SharePoint, within the appropriate College folder, "Preliminary Legislation", to allow for review and questions. Any modifications should be saved as "original file name.v2.docx" and uploaded as well.

Following final College Curriculum Committee approval, Please apply the appropriate signatures, and send to your College Admin.

Each college curriculum representative will notify their respective college and department(s) of the completion of the approval process. If COCAO/KBOR approval is required, questions should be directed to the Provost's administrative officer at x4113.

1. Description of Change:

   Removing required Pitt Pathway classes from major and offering electives instead.

2. Rationale for change, including changes to curriculum objectives:

   Best fit to match KBOR directive for state-wide Gen Ed package

3. Will this change affect any education majors? No
   If "yes," this request will need to have the approval of the Council for Teacher Education.

4. Is this **Revision** related to, and/or may affect, any other department/college/unit curricula or programs at PSU? ***Whether a "yes" or "no" response, please provide an explanation or documentation of any discussions (e.g. copies of emails, memos, etc.) that have occurred.***

   No, primarily because they are Pitt Pathway classes

5. Is this **Revision** related to, and/or affect, any degree program or minor/emphasis/certificate at any other Regent university? ***Whether a "yes" or "no" response, please provide an explanation.***

   No, most emphasis areas in Physical Therapy emphasis differ from major to major and the changes we are making are to Gen Ed.

6. Does the revision meet University catalog definitions for majors, minors, emphases and certificates as appropriate? **Yes**

7. Are additional resources required (e.g. library/multimedia resources, technology, space, major expense, etc.)?

   No

8. Will any additional student fees be required (e.g. equipment, clothing, travel, licensing, etc.)? **No**
   If "yes," complete the course fee form on the Provost's website, it will need to gain approval of the President's Council.

9. What additional costs will be required for revising this curriculum (e.g. staffing, equipment, etc.)?

   None

10. Describe the program assessment plan (for **new** programs only):

    a. Enrollment targets =
    b. Outcome expected and process to evaluate =

    c. Plan to abandon if enrollment targets not met =

Questions for certificate only: If you have questions concerning these questions, contact the Financial Aid Office, 4240. ***If "yes," to both questions, it is the department's responsibility to send a copy of this legislation form to the Director of Admission and Financial Assistance to initiate Department of Education approval.***

1. Are students pursuing only this certificate eligible for federal financial assistance based on federal guidelines? **Select One**

2. Does the course content contained within this certificate provide relevance to employment opportunities or meet professional objectives for the student? **Select One**

Faculty Senate Notification Form

This form is to be used to notify campus of changes that need to be updated in the university catalog but don't necessarily need Faculty Senate approval.

Effective Date: Fall 2024 Submission Date: 05//2024

Department: Chemistry College: Arts & Science

Contact Person: Khamis Siam Chair/Coordinator

Originating Department(s): After completing this form, in its entirety, please have it signed by the chair and the dean. The College Admin will load to the "Approved College Curriculum" file in SharePoint. It will be added to the next 10-day viewing and then sent forward with the next Faculty Senate agenda.

---

1. Purpose/Justification for this notification:

   The course CHEM369 needs to be offered on a variable credit hour from 1-3. The change is needed to comply with the KBoR requirements of 120 hours to complete a degree. The reason for making it variable is to allow students under the current catalog to obtain credit for 3 hours and that will be phased out for students coming in the Fall 2024 catalog.

2. Is this related to, and/or affect, any other department/college/unit curricula or programs at Pittsburg State University? No *Whether "Yes" or "No" response, please provide an explanation. Provide documentation of any discussions (e.g. copies of emails, memos, etc.) that have occurred.*

3. Is this notification related to, and/or affect, any degree program or minor/emphasis/certificate at any other Regent university? No *Whether a "yes" or "no" response, please provide an explanation.*

Faculty Senate Notification Form

This form is to be used to notify campus of changes that need to be updated in the university catalog but don't necessarily need Faculty Senate approval.

Effective Date: Fall 2024 Submission Date: 05//2024

Department: Chemistry College: Arts & Science

Contact Person: Khamis Siam Chair/Coordinator

Originating Department(s): After completing this form, in its entirety, please have it signed by the chair and the dean. The College Admin will load to the "Approved College Curriculum" file in SharePoint. It will be added to the next 10-day viewing and then sent forward with the next Faculty Senate agenda.

---

1. Purpose/Justification for this notification:

   The course CHEM469 needs to be offered on a variable credit hour from 1-3. The change is needed to comply with the KBoR requirements of 120 hours to complete a degree. The reason for making it variable is to allow students under the current catalog to obtain credit for 3 hours and that will be phased out for students coming in the Fall 2024 catalog.

2. Is this related to, and/or affect, any other department/college/unit curricula or programs at Pittsburg State University? No *Whether "Yes" or "No" response, please provide an explanation. Provide documentation of any discussions (e.g. copies of emails, memos, etc.) that have occurred.*

3. Is this notification related to, and/or affect, any degree program or minor/emphasis/certificate at any other Regent university? No *Whether a "yes" or "no" response, please provide an explanation.*

John,

Kris caught one more thing. The student teaching block adds up to 15, not 16, hours. This document reflects that.

That means you have 1 hour to work with, but I didn't see anywhere that really helps you.

If selection is "Deletion" complete questions 2, 3, 4, & 5, then complete signatures.

Originating Departments(s): After completing this form, in its entirety, please upload it to the SharePoint, within the appropriate College folder, "Preliminary Legislation", to allow for review and questions. Any modifications should be saved as "original file name.v2.docx" and uploaded as well.

Following final College Curriculum Committee approval, Please apply the appropriate signatures, and send to your College Admin.

Each college curriculum representative will notify their respective college and department(s) of the completion of the approval process. If COCAO/KBOR approval is required, questions should be directed to the Provost's administrative officer at x4113.

1. Description of Change:

   1. Add 6 credit hours of English electives, any ENGL courses numbered 300 or higher.
   2. Add 3 credit hours of literature electives, any literature course numbered 500 or higher.
   3. Delete four courses from the list of literature electives:

   ENGL 561: British Theme
   ENGL 566: American Theme
   ENGL 570: International Literatures Genre: ENGL 571: International Literatures Theme

   4. Add two courses to the list of literature electives: ENGL 580: Environmental Literature ENGL 582: African American Literature

2. Rationale for change, including changes to curriculum objectives:

   1 & 2: This will increase the breadth and depth of knowledge for students in the emphasis, allowing flexibility to choose from a variety of topics in English (at the 300+ level) while ensuring in-depth study of literature at the 500+ level.

   3. These four courses have been replaced by three new courses that were added to the emphasis last year: ENGL 550 Topics in British Literature, 551 Topics in American Literature, 552 Topics in International Literature. The four courses listed above are longer being taught.

   4. These two courses were created and legislated previously, but have not yet been integrated into the Literature and Culture emphasis. We wish to include them as options for literature electives.

3. Will this change affect any education majors? No
   If "yes," this request will need to have the approval of the Council for Teacher Education.

4. Is this **Revision** related to, and/or may affect, any other department/college/unit curricula or programs at PSU? ***Whether a "yes" or "no" response, please provide an explanation or documentation of any discussions (e.g. copies of emails, memos, etc.) that have occurred.***

   No. Changes affect only students in the Literature and Culture emphasis of the English major.

5. Is this **Revision** related to, and/or affect, any degree program or minor/emphasis/certificate at any other Regent university? ***Whether a "yes" or "no" response, please provide an explanation.***

   No. Changes affect only students in the Literature and Culture emphasis of the Pittsburg State English major.

6. Does the revision meet University catalog definitions for majors, minors, emphases and certificates as appropriate? **Yes**

7. Are additional resources required (e.g. library/multimedia resources, technology, space, major expense, etc.)?
   No

8. Will any additional student fees be required (e.g. equipment, clothing, travel, licensing, etc.)? **No**
   If "yes," complete the course fee form on the Provost's website, it will need to gain approval of the President's Council.

9. What additional costs will be required for revising this curriculum (e.g. staffing, equipment, etc.)?
   None.

10. Describe the program assessment plan (for **new** programs only):

    a. Enrollment targets = N/A
    b. Outcome expected and process to evaluate =
       N/A

    c. Plan to abandon if enrollment targets not met =
       N/A

Questions for certificate only: If you have questions concerning these questions, contact the Financial Aid Office, 4240. ***If "yes," to both questions, it is the department's responsibility to send a copy of this legislation form to the Director of Admission and Financial Assistance to initiate Department of Education approval.***

1. Are students pursuing only this certificate eligible for federal financial assistance based on federal guidelines? **Select One**

2. Does the course content contained within this certificate provide relevance to employment opportunities or meet professional objectives for the student? **Select One**

Course Description	This course presents an overview of the development of amateur and professional athletics over the course history with a particular emphasis on the nineteenth and twentieth centuries. Origins and development of different sports and their impact on the world stage. Sports and social issues merge and intertwine in global society and these trends are not new. The Olympic movement has always been politicized even as politicians and athletes have proclaimed that sport and politics should not mix. Problems with race and gender have revealed themselves in sport, which sometimes has led and sometimes followed on addressing these issues. Gambling, free agency, and outrageous salaries and their impact on sports and society. Deletion **Emphasis**

If Emphasis, enter name of the Major: Recreation Services, Sport, and Hospitality Management

If selection is "Deletion" complete questions 2, 3, 4, & 5, then complete signatures.

Originating Departments(s): After completing this form, in its entirety, please upload it to the SharePoint, within the appropriate College folder, "Preliminary Legislation", to allow for review and questions. Any modifications should be saved as "original file name.v2.docx" and uploaded as well.

Following final College Curriculum Committee approval, Please apply the appropriate signatures, and send to your College Admin.

Each college curriculum representative will notify their respective college and department(s) of the completion of the approval process. If COCAO/KBOR approval is required, questions should be directed to the Provost's administrative officer at x4113.

1. Description of Change:

   Deletion of Community and Worksite Wellness emphasis.

2. Rationale for change, including changes to curriculum objectives:

   The Community and Worksite Wellness emphasis will be deleted from the RSSHM program. This emphasis has been low in students, currently it has two majors. Students who typically would be in the Community and Worksite Wellness emphasis are now exercise science majors, going into clinical exercise science or strength and conditioning. The program does not have the resources to put into building the CWW emphasis.

3. Will this change affect any education majors? No
   If "yes," this request will need to have the approval of the Council for Teacher Education.

4. Is this **Deletion** – related to, and/or may affect, any other department/college/unit curricula or programs at PSU? ***Whether a "yes" or "no" response, please provide an explanation or documentation of any discussions (e.g. copies of emails, memos, etc.) that have occurred.***

   No. This is an emphasis only within the RSSHM major and will not impact other programs at PSU.

5. Is this **Deletion** related to, and/or affect, any degree program or minor/emphasis/certificate at any other Regent university? ***Whether a "yes" or "no" response, please provide an explanation.***

   No. This is an emphasis only within the RSSHM major and will not impact other programs at any Regent universities.

6. Does the revision meet University catalog definitions for majors, minors, emphases and certificates as appropriate? **NA**

7. Are additional resources required (e.g. library/multimedia resources, technology, space, major expense, etc.)?

8. Will any additional student fees be required (e.g. equipment, clothing, travel, licensing, etc.)? **No**
   If "yes," complete the course fee form on the Provost's website, it will need to gain approval of the President's Council.

9. What additional costs will be required for revising this curriculum (e.g. staffing, equipment, etc.)?

10. Describe the program assessment plan (for **new** programs only):

    a. Enrollment targets =
    b. Outcome expected and process to evaluate =

    c. Plan to abandon if enrollment targets not met =

Questions for certificate only: If you have questions concerning these questions, contact the Financial Aid Office, 4240. ***If "yes," to both questions, it is the department's responsibility to send a copy of this legislation form to the Director of Admission and Financial Assistance to initiate Department of Education approval.***

1. Are students pursuing only this certificate eligible for federal financial assistance based on federal guidelines? **Select One**

2. Does the course content contained within this certificate provide relevance to employment opportunities or meet professional objectives for the student? **Select One**

Dr. Hutchens,
SOC 577 Public Affairs is on the class schedule for Spring of '24. I hope to offer the course every spring semester. It was legislated as a component for our Public Policy minor but it's open to everyone. Some details from the course syllabus are copied below. Let me know if you have more questions about the course.

Thank you,
Gary Wilson

Course Overview: This course provides an overview of public affairs as a discipline and exposes students to different career opportunities in relevant fields. The course explores public policy, public service, civic engagement, and leadership. The course draws upon the experiences of faculty and practicing professionals, providing perspectives about public affairs in both traditional and nontraditional career paths. In addition to in-class meetings, other activities associated with leadership in the community are incorporated into the class curriculum.

Course Objectives: Successful completion of the course will give students

- an appreciation for public policy and public service
- an understanding of the difference between politics and policy
- a new awareness of their potential as leaders in public service
- the ability to comfortably engage in in-depth discussions about relevant public policy issues

Required Texts:

Additional articles and readings will be posted to the Canvas course since much of the content of the course is informed by the pressing policy matters of the day. It is imperative for students to maintain an awareness of current events so students are encouraged to follow one or more news sources on a regular basis. Examples will be announced in the classroom.

Dr. Tarpey,

I hope you're having a great semester thus far, I believe we both served on the same panel during new faculty orientation at the Bicknell a few weeks ago! Anyway, I'm working on creating a certificate for our public recreation-focused students in our Rec Services, Sport, and Hospitality Management program and I was wondering if you might recommend POLS 201 for students who hope to work in the public sphere? I would think that given the nature of public recreation (parks & rec, etc.) a deeper understanding of public policy in general might be insightful for students. We cover a lot of the business and leadership side of things, as well as the legal, but not necessarily the nuts and bolts of policy development.

If not that course, is there another you might suggest within your department? Let me know your thoughts!

Thank you for your time!

Dr. Hutchens,

Thanks for reaching out! I hope your semester is going well. Yes, I think that POLS 201: Introduction to Public Policy would be a great fit for your program. Thank you for considering including it in your program. The course is a good introduction to all aspects of the policymaking process in the United States. Also, the course considers a variety of substantive areas of policy rather than focusing on one, and we are hoping to get students with interests in a variety of policy areas. I spoke with my colleague Dr. Gary Wilson, who directs our Public Policy minor, and he also recommended considering SOC 577: Public Affairs as an addition or substitute for POLS 201. SOC 577 requires SOC 101: Introduction to Sociology, but he would waive the requirement for interested students. We are hoping to offer POLS 201 every semester, but SOC 577 will likely be offered less frequently.

If you decide to include either of these courses, please let us know if there would be any potential time conflicts for Rec Services, Sport, and Hospitality Management students, and we will try our best to accommodate them. We hope to offer these courses at a variety of times and in a variety of formats in the coming years, including online sections.

Please let me know if I can answer any questions, and thank you again for considering our course!

Best,
Matt

Subject: Re: Parks & Outdoor Recreation Certificate: Natural History Minor Courses

The Regional Natural History class is open to anyone who has declared the minor, are SSRM students, or are secondary education/Biology majors. I have more limited seating in this spring semester course, and have enrollment capped to serve those students, some of which have been HHPR students.

The Principals of Conservation Course is offered every fall and has a higher enrollment cap because it is lecture only and there are no field trips. The student mix represents the same cross-disciplinary mix as Regional Natural History.

Both of these courses have traditionally served other students who have met pre-requisites, and there has been no difficulty accommodating them in the numbers we have experienced. If you are anticipating greater interest in a certification curriculum that includes these two courses, and you predict numbers to increase over historical enrollments, I would be supportive, but would need to plan for how to deliver the course, plus field trips, in a manner reflecting due diligence and justice to the students and material.

As for our minor, our faculty will be assessing its construction and revision. In spite of that, the courses will continue to be offered whether they are part of a minor, or as electives for those seeking a cluster of courses for certification.

If you have any concerns, please contact me, and I will respond in as timely a manner as can be achieved with substance.

Dr. Nonnenmacher,

I hope you're having a great end to the fall semester! My name is Shelby Hutchens, I'm an Assistant Professor with HHPR and I specifically advise our Recreation and Sport Management students.

We are looking to create a certificate that even more specifically provides our students who are interested in the National Parks, outdoor recreation, or even city parks and recreation sector the opportunity to get a more diverse education. I believe several of our students are seeking a Natural History minor with the biology program, and I was hoping to include a few classes in this new certificate from that minor ultimately making it easier for them to get that minor too.

Which classes might you suggest we include in our certificate from those listed in the Natural History minor? At first glance, it seems the BIOL 303 and 313 would be extremely beneficial. Are those classes available to all students?

Let me know at your earliest convenience. Thank you for your time!

Hello Shelby,

Thanks for your email! I am always happy to talk about what we are offering in the philosophy department. I am only sort of just coming into all of this, as my colleagues have left me in recent years. Since I have been involved in being FTT, we have offered PHIL 114 once (now that I think of it, I think we did it online once as well before the in-person version I was thinking of when I typed that last sentence). It only barely made with five students (ended up with only four by the time the course ended I think). I had an absolute blast in teaching it though and would love to have an opportunity to teach it again. We have not offered it since, but I would love to be able to if I knew that it would make and would be helpful to another department. At present, we are not talking about offering it in the Fall of '24 but that schedule is not set yet so I would be open to changing what the plan currently is or making sure it is on the docket for Spring of "25.

I hope that this is helpful information for you. If you need anything else, please let me know.

Shelby,

I'm sorry you didn't hear from my business colleagues. I think that looks like a strong curriculum for a minor/certificate. Those marketing courses would be good electives. We do also offer a Sports Marketing course though it's only been in the summer lately. Hoping to offer it more often in the near future.

I modified the prerequisites for Sports Economics to just any one of these courses: ECON 191, ECON 200, ECON 201. No more elementary stats requirement, though it will be helpful to take. So your students could take one of the econ courses for their social science gen ed bucket and then take my Sports Economics course.

Subject: Check in for Sport Management Courses

Dr. Binder,

I hope you're doing well and having a good semester so far, I just wanted to follow up once more before I submit our legislation regarding ECON 433 and a few other business courses as electives.

We are going to add a minor and certificate in sports management for our Recreation & Sport Management emphasis and wanted to get your eyes on it before it gets voted on. I attempted to reach out to the instructors of the other business classes but never did receive a response.

Here is the curriculum for the minor/certificate:

ACCTG 201- Financial Accounting
MKTG 330 - Principles of Marketing
ECON 433 - Sports Economics
REC 450 - Sport Operations & Governance

Electives:

ACCTG 202 - Managerial Accounting

Comm 274 - Intro to Audio and Video
- Comm 390 - Sports Broadcasting I
- Comm 490 - Sports Broadcasting II

MGT 330 - Management & Organizational Behavior

MKTG 430 - Retail & Channels Management
MKTG 440 - Advertising Management
MKTG 450 - Personal Selling & Sales Management
MKTG 490 - Branding & Content Marketing

PSYCH 575 - Industrial & Organizational Psychology

REC 400 - Event Design, Planning, & Management

I know in the fall we discussed 433, and we are asking the advising center to encourage students to take the pre-req for that class (Elementary stats). We are also encouraging the pre-reqs to all other business and marketing courses, and currently offer a few of them already as electives within our Rec & Sport emphasis. We anticipate only a few students to select the minor/certificate at the start, but I wanted to double check with you before I submit the paperwork.

Please let me know your thoughts at your earliest convenience!

Dr. Hutchens,
SOC 577 Public Affairs is on the class schedule for Spring of '24. I hope to offer the course every spring semester. It was legislated as a component for our Public Policy minor but it's open to everyone. Some details from the course syllabus are copied below. Let me know if you have more questions about the course.

Thank you,
Gary Wilson

Course Overview: This course provides an overview of public affairs as a discipline and exposes students to different career opportunities in relevant fields. The course explores public policy, public service, civic engagement, and leadership. The course draws upon the experiences of faculty and practicing professionals, providing perspectives about public affairs in both traditional and nontraditional career paths. In addition to in-class meetings, other activities associated with leadership in the community are incorporated into the class curriculum.

Course Objectives: Successful completion of the course will give students

- an appreciation for public policy and public service
- an understanding of the difference between politics and policy
- a new awareness of their potential as leaders in public service
- the ability to comfortably engage in in-depth discussions about relevant public policy issues

Required Texts:

Additional articles and readings will be posted to the Canvas course since much of the content of the course is informed by the pressing policy matters of the day. It is imperative for students to maintain an awareness of current events so students are encouraged to follow one or more news sources on a regular basis. Examples will be announced in the classroom.

Dr. Tarpey,

I hope you're having a great semester thus far, I believe we both served on the same panel during new faculty orientation at the Bicknell a few weeks ago! Anyway, I'm working on creating a certificate for our public recreation-focused students in our Rec Services, Sport, and Hospitality Management program and I was wondering if you might recommend POLS 201 for students who hope to work in the public sphere? I would think that given the nature of public recreation (parks & rec, etc.) a deeper understanding of public policy in general might be insightful for students. We cover a lot of the business and leadership side of things, as well as the legal, but not necessarily the nuts and bolts of policy development.

If not that course, is there another you might suggest within your department? Let me know your thoughts!

Thank you for your time!

Dr. Hutchens,

Thanks for reaching out! I hope your semester is going well. Yes, I think that POLS 201: Introduction to Public Policy would be a great fit for your program. Thank you for considering including it in your program. The course is a good introduction to all aspects of the policymaking process in the United States. Also, the course considers a variety of substantive areas of policy rather than focusing on one, and we are hoping to get students with interests in a variety of policy areas. I spoke with my colleague Dr. Gary Wilson, who directs our Public Policy minor, and he also recommended considering SOC 577: Public Affairs as an addition or substitute for POLS 201. SOC 577 requires SOC 101: Introduction to Sociology, but he would waive the requirement for interested students. We are hoping to offer POLS 201 every semester, but SOC 577 will likely be offered less frequently.

If you decide to include either of these courses, please let us know if there would be any potential time conflicts for Rec Services, Sport, and Hospitality Management students, and we will try our best to accommodate them. We hope to offer these courses at a variety of times and in a variety of formats in the coming years, including online sections.

Please let me know if I can answer any questions, and thank you again for considering our course!

Best,
Matt

Subject: Re: Parks & Outdoor Recreation Certificate: Natural History Minor Courses

The Regional Natural History class is open to anyone who has declared the minor, are SSRM students, or are secondary education/Biology majors. I have more limited seating in this spring semester course, and have enrollment capped to serve those students, some of which have been HHPR students.

The Principals of Conservation Course is offered every fall and has a higher enrollment cap because it is lecture only and there are no field trips. The student mix represents the same cross-disciplinary mix as Regional Natural History.

Both of these courses have traditionally served other students who have met pre-requisites, and there has been no difficulty accommodating them in the numbers we have experienced. If you are anticipating greater interest in a certification curriculum that includes these two courses, and you predict numbers to increase over historical enrollments, I would be supportive, but would need to plan for how to deliver the course, plus field trips, in a manner reflecting due diligence and justice to the students and material.

As for our minor, our faculty will be assessing its construction and revision. In spite of that, the courses will continue to be offered whether they are part of a minor, or as electives for those seeking a cluster of courses for certification.

If you have any concerns, please contact me, and I will respond in as timely a manner as can be achieved with substance.

Dr. Nonnenmacher,

I hope you're having a great end to the fall semester! My name is Shelby Hutchens, I'm an Assistant Professor with HHPR and I specifically advise our Recreation and Sport Management students.

We are looking to create a certificate that even more specifically provides our students who are interested in the National Parks, outdoor recreation, or even city parks and recreation sector the opportunity to get a more diverse education. I believe several of our students are seeking a Natural History minor with the biology program, and I was hoping to include a few classes in this new certificate from that minor ultimately making it easier for them to get that minor too.

Which classes might you suggest we include in our certificate from those listed in the Natural History minor? At first glance, it seems the BIOL 303 and 313 would be extremely beneficial. Are those classes available to all students?

Let me know at your earliest convenience. Thank you for your time!

Hello Shelby,

Thanks for your email! I am always happy to talk about what we are offering in the philosophy department. I am only sort of just coming into all of this, as my colleagues have left me in recent years. Since I have been involved in being FTT, we have offered PHIL 114 once (now that I think of it, I think we did it online once as well before the in-person version I was thinking of when I typed that last sentence). It only barely made with five students (ended up with only four by the time the course ended I think). I had an absolute blast in teaching it though and would love to have an opportunity to teach it again. We have not offered it since, but I would love to be able to if I knew that it would make and would be helpful to another department. At present, we are not talking about offering it in the Fall of '24 but that schedule is not set yet so I would be open to changing what the plan currently is or making sure it is on the docket for Spring of "25.

I hope that this is helpful information for you. If you need anything else, please let me know.

Cheers,
Scott

Shelby,

I'm sorry you didn't hear from my business colleagues. I think that looks like a strong curriculum for a minor/certificate. Those marketing courses would be good electives. We do also offer a Sports Marketing course though it's only been in the summer lately. Hoping to offer it more often in the near future.

I modified the prerequisites for Sports Economics to just any one of these courses: ECON 191, ECON 200, ECON 201. No more elementary stats requirement, though it will be helpful to take. So your students could take one of the econ courses for their social science gen ed bucket and then take my Sports Economics course.

Subject: Check in for Sport Management Courses

Dr. Binder,

I hope you're doing well and having a good semester so far, I just wanted to follow up once more before I submit our legislation regarding ECON 433 and a few other business courses as electives.

We are going to add a minor and certificate in sports management for our Recreation & Sport Management emphasis, and wanted to get your eyes on it before it gets voted on. I attempted to reach out to the instructors of the other business classes but never did receive a response.

Here is the curriculum for the minor/certificate:

ACCTG 201- Financial Accounting
MKTG 330 - Principles of Marketing
ECON 433 - Sports Economics
REC 450 - Sport Operations & Governance

Electives:

ACCTG 202 - Managerial Accounting

Comm 274 - Intro to Audio and Video
- Comm 390 - Sports Broadcasting I
- Comm 490 - Sports Broadcasting II

MGT 330 - Management & Organizational Behavior

MKTG 430 - Retail & Channels Management
MKTG 440 - Advertising Management
MKTG 450 - Personal Selling & Sales Management
MKTG 490 - Branding & Content Marketing

PSYCH 575 - Industrial & Organizational Psychology

REC 400 - Event Design, Planning, & Management

I know in the fall we discussed 433, and we are asking the advising center to encourage students to take the pre-req for that class (Elementary stats). We are also encouraging the pre-reqs to all other business and marketing courses, and currently offer a few of them already as electives within our Rec & Sport emphasis. We anticipate only a few students to select the minor/certificate at the start, but I wanted to double check with you before I submit the paperwork.

Please let me know your thoughts at your earliest convenience!

Subject: PSYCH 575: Question for Our Students

Dr. Allison,

My name is Shelby Hutchens, I'm an Assistant Professor with the Health, Human Performance, and Recreation department here at PSU. I'm working on creating a certificate for our sport management students and I think your PSYCH 575 course would be a great fit as an elective for our certificate.

Our students are looking to work in the fast paced world of either collegiate or professional sport, and as someone with a psych background myself, I think understanding the environment they find themselves in from a psychological perspective would be incredibly valuable. I teach our Rec 280 leadership course and hit on several psychological principles including motivation and decision making in the workplace, but for those that want a deeper dive into the psychology of organizational behavior, I thought your class might be beneficial.

I was hoping you might be able to tell me more about the class and whether or not you'd be comfortable with our majors taking the class?

Let me know! Thank you!

It was good to meet you as well and sorry for my late reply. I put it on the back burner and forgot about it.

I've offered Sports Econ every fall for 7 years and plan to continue offering it every fall. I attached the syllabus. I don't typically put a lot of info in it about what is covered. You can get some idea by looking at the course objectives and the outline, but it may require a meeting or access to my Canvas course if you're wanting more detail.

I would love to get more students from your department. Right now it requires microeconomics, macroeconomics, and elementary stats as prerequisites, but I am working on reducing that down to any economics course. With those 3 prereqs I pretty much only get business students. I'd also love to know more about your courses. Let me know if you want to get together to discuss it sometime.

Dr. Binder,

It was good to meet you during PD day (2nd session) earlier this week! I hope you're doing well. I'm working on a few things for our program and I was wondering if you could tell me more about the ECON 433 – Sports Economics course, namely a) how often it's offered and b) what is covered in the course. Feel free to send a syllabus if you have it handy! We currently offer it as an elective to an emphasis, but we might offer a certificate and include it therein.

Have a great weekend!

Shelby,

I'm sorry you didn't hear from my business colleagues. I think that looks like a strong curriculum for a minor/certificate. Those marketing courses would be good electives. We do also offer a Sports Marketing course though it's only been in the summer lately. Hoping to offer it more often in the near future.

I modified the prerequisites for Sports Economics to just any one of these courses: ECON 191, ECON 200, ECON 201. No more elementary stats requirement, though it will be helpful to take. So your students could take one of the econ courses for their social science gen ed bucket and then take my Sports Economics course.

Subject: Check in for Sport Management Courses

Dr. Binder,

I hope you're doing well and having a good semester so far, I just wanted to follow up once more before I submit our legislation regarding ECON 433 and a few other business courses as electives.

We are going to add a minor and certificate in sports management for our Recreation & Sport Management emphasis and wanted to get your eyes on it before it gets voted on. I attempted to reach out to the instructors of the other business classes but never did receive a response.

Here is the curriculum for the minor/certificate:

ACCTG 201- Financial Accounting
MKTG 330 - Principles of Marketing
ECON 433 - Sports Economics
REC 450 - Sport Operations & Governance

Electives:

ACCTG 202 - Managerial Accounting

Comm 274 - Intro to Audio and Video
- Comm 390 - Sports Broadcasting I
- Comm 490 - Sports Broadcasting II

MGT 330 - Management & Organizational Behavior

MKTG 430 - Retail & Channels Management
MKTG 440 - Advertising Management
MKTG 450 - Personal Selling & Sales Management
MKTG 490 - Branding & Content Marketing

PSYCH 575 - Industrial & Organizational Psychology

REC 400 - Event Design, Planning, & Management

I know in the fall we discussed 433, and we are asking the advising center to encourage students to take the pre-req for that class (Elementary stats). We are also encouraging the pre-reqs to all other business and marketing courses, and currently offer a few of them already as electives within our Rec & Sport emphasis. We anticipate only a few students to select the minor/certificate at the start, but I wanted to double check with you before I submit the paperwork.

Please let me know your thoughts at your earliest convenience!

Thanks again,

Revision **Major**

If Emphasis, enter name of the Major: B.A. and B.S. in Psychology

If selection is "Deletion" complete questions 2, 3, 4, & 5, then complete signatures.

Originating Departments(s): After completing this form, in its entirety, please upload it to the SharePoint, within the appropriate College folder, "Preliminary Legislation", to allow for review and questions. Any modifications should be saved as "original file name.v2.docx" and uploaded as well.

Following final College Curriculum Committee approval, Please apply the appropriate signatures, and send to your College Admin.

Each college curriculum representative will notify their respective college and department(s) of the completion of the approval process. If COCAO/KBOR approval is required, questions should be directed to the Provost's administrative officer at x4113.

1. Description of Change:

   MATH 143, Elementary Statistics, is to become the required mathematics course for psychology majors. Psychology has not formally specified a required mathematics course for majors in prior catalogs.

2. Rationale for change, including changes to curriculum objectives:

   The prerequisite for PSYCH 389, Research Methods I, is changing from College Algebra or Precalculus to Elementary Statistics, MATH 143, to better prepare our students for success in our research methods sequence (PSYCH 389 & 392) and success in their careers. Since PSYCH 389 is required of all of our majors, it is important for students to see that MATH 143 is the required course on their degree audits well before they attempt enrollment in PSYCH 389. We support our majors taking mathematics courses in addition to MATH 143, but we would like all of our students to have MATH 143. Prior to this revision, College Algebra (or PreCalculus) was the de facto requirement for all of our majors, but it was not obvious to students when they looked at their degree audits. This revision should correct that lack of transparency.

3. Will this change affect any education majors? No
   If "yes," this request will need to have the approval of the Council for Teacher Education.

4. Is this **Revision** related to, and/or may affect, any other department/college/unit curricula or programs at PSU? ***Whether a "yes" or "no" response, please provide an explanation or documentation of any discussions (e.g. copies of emails, memos, etc.) that have occurred.***

   Yes. The School of Science and Mathematics will need to adjust section counts of Elementary Statistics and College Algebra to accommodate our students, Tim Flood has indicated they are able to do so. Correspondence with Tim Flood concerning this matter is attached.

5. Is this **Revision** related to, and/or affect, any degree program or minor/emphasis/certificate at any other Regent university? ***Whether a "yes" or "no" response, please provide an explanation.***

   No.

6. Does the revision meet University catalog definitions for majors, minors, emphases and certificates as appropriate? **Yes**

7. Are additional resources required (e.g. library/multimedia resources, technology, space, major expense, etc.)?
   School of Science and Mathematics will need to add sections of Elementary Statistics and subtract sections of College Algebra, but this should only require a shifting of resources. No additional resources should be necessary.

8. Will any additional student fees be required (e.g. equipment, clothing, travel, licensing, etc.)? **No**
   If "yes," complete the course fee form on the Provost's website, it will need to gain approval of the President's Council.

9. What additional costs will be required for revising this curriculum (e.g. staffing, equipment, etc.)?
   No new costs are anticipated.

10. Describe the program assessment plan (for **new** programs only):

    a. Enrollment targets =
    b. Outcome expected and process to evaluate =

    c. Plan to abandon if enrollment targets not met =

Questions for certificate only: If you have questions concerning these questions, contact the Financial Aid Office, 4240. ***If "yes," to both questions, it is the department's responsibility to send a copy of this legislation form to the Director of Admission and Financial Assistance to initiate Department of Education approval.***

Bruce,

We should be able to make that work. Our seats in 143 will be limited this fall due to sabbaticals and phased retirements, but moving forward we should be able to accommodate the additional students.

Thanks,
Tim

Hello again Tim. Our department has voted to change the math prerequisite of PSYCH 389 to MATH 143 and make MATH 143 the required mathematics course for psychology. We will be moving the legislation forward by March with the intent of making the changes effective for incoming freshmen in the 2024-2025 academic year. In the past two academic years, an average of 104 students have completed PSYCH 389 each year.

Will this timeline give your school sufficient time to adjust its offerings?

Thank you, and I look forward to your reply,

Tim, thank you for the reply. In general, I agree that the course might be better than College Algebra for 99.9+% of our majors. An exception would be those seeking a Ph.D. in experimental psychology, especially cognitive science or cognitive neuroscience. Those individuals should even consider a minor in mathematics and/or computer science.

Thanks for checking. Given adequate warning we should be able to accommodate your students. I personally feel Elementary Stats would be better for your students than College Algebra, but I will leave that up to you all to decide.

I have attached Dr. Jay's syllabus that should give you some more details about the content.

Subject: Query regarding MATH 143 as a possible prerequisite for PSYCH 389

Hello Tim,
The Psychology and Counseling Undergraduate Curriculum Committee is considering whether to change the prerequisite for PSYCH 389 from MATH 110/113 to MATH 143. Nothing definite, but we will have a discussion this coming Tuesday regarding the prerequisite. We would typically have 80-100 students per year needing MATH 143 if we made the change following consultation with your department, of course.

Questions:

(1) Could your department/school (what do we call them these days?) support such a change, if implemented?
(2) Do you have a syllabus with a list of statistics, both descriptive and inferential (e.g., confidence intervals, one-sample z, independent-samples t, simple least squares regression, and so on) covered in the course? Which textbook do you typically use?

I know the general outcomes come from the KBOR Core Outcomes project (MAT 1020), but more specifics would be helpful!

Thank you very much,
Bruce

Subject: Sociology courses

Good morning, Dr. Wilson,

Amber Tankersley and I have been re-working our Child Development emphasis in Family Consumer Sciences degree plan to align with the systemwide general education framework. Simultaneously, we are using this opportunity to expand the list of potential restricted electives Child Development students may take.

We've identified the department's SOC 360 (Community Sociology), SOC 443 (Race and Ethnic Relations), SOC 440 (Personality and Social Structure), and SOC 548 (Juvenile Delinquency) as courses that might fit well as part of the restricted electives. Do you think the classes would be beneficial to students interested in Child Development? Do you have any concerns about including the courses as part of the restricted electives?

We think this would impact enrollment by, 1-2 students total (not per course) each semester. If you have any questions, please do not hesitate to reach out. Hope you have a great Friday!

Heather,

I'm pleased you included the SOC courses in the Child Development emphasis. They should all be beneficial to the students. 360 and 443 are both offered every 18 months. 440 and 548 have been offered every Fall semester for many years.

Let me know if you need any additional information on the courses. Thanks again,

Heather,

Thanks for reaching out about this. PSYCH 736 Psychology of Family Development is a fall only course, so just keep that in mind. PSYCH 701 Ethics in Human Services was originally offered as part of the B.S. Psychology (Substance Abuse Services) degree which we no longer offer. Even though this course is listed as an option for Psychology and the Military we have not offered it in several years. I don't believe there is any plan to offer it in the near future. We do hope to hire some more faculty in the near future, so this might change, but I can't guarantee anything at this time. Let me know if I can help in any other way.

Thank you for such a prompt response. We will make a note about PSYCH 736 being fall only and certainly understand about adjustments of course offerings. If the course does come back, will you keep us in mind? Appreciate your help.

I just turned in the fall schedule and put IND 110 at 11:00. That is the time that your students actually need, right?

Thanks,
Denise

Denise,
Yes, the 11:00 will work! Also, per our conversations last semester concerning adding IND 120 for the FCS teacher ed requirements, are you still okay with me adding that to my program? I'm trying to consider the possible effects this could cause for your department by adding FCS 120, meaning you will probably gain anywhere from 3 - 8 additional students depending on their rotation. Can you think of other possible effects? I've placed IND 110 in student's sophomore fall semester and IND 120 the following spring.

Let me know your thoughts!

Sheila,

We have a new Director, so I need to speak with him to see how he feels about IND 120. I think it would be great for your students, but we are currently battling for more space or a larger space because we are growing. I will try to speak with him tomorrow and get back to you.

Since the 11:00 time fits your schedule now, how many students do you forecast for that course?

Denise,
Just following up with this email concerning IND 120. As far as numbers for IND 110, I would say low end of 3 students and high end of 6. The same for IND 120. Let me know if you have any questions.

Sheila,

It just dawned on me this morning that I had not responded about IND 120. I had a meeting with Don and he said 3-6 shouldn't be a problem.

Thanks,
Denise

Faculty Senate Curriculum Change Form

Effective Date: FALL 2024 Submission Date: 2/1/24

Department: Teaching and Leadership College: Education

Contact Person: Jennifer Murray Faculty

Revision **Minor**

If Emphasis, enter name of the Major: Family and Consumer Science- Nutrition and Wellness Minor

If selection is "Deletion" complete questions 2, 3, 4, & 5, then complete signatures.

Originating Departments(s): After completing this form, in its entirety, please upload it to the SharePoint, within the appropriate College folder, "Preliminary Legislation", to allow for review and questions. Any modifications should be saved as "original file name.v2.docx" and uploaded as well.

Following final College Curriculum Committee approval, Please apply the appropriate signatures, and send to your College Admin.

Each college curriculum representative will notify their respective college and department(s) of the completion of the approval process. If COCAO/KBOR approval is required, questions should be directed to the Provost's administrative officer at x4113.

1. Description of Change:
   Revision to the Core Requirements for the Nutrition and Wellness minor.

2. Rationale for change, including changes to curriculum objectives:

   FCS-571 Directed Readings in Family and Consumer Sciences will be replaced with FCS-405 Advanced Nutrition and Wellness as a core requirement for the Minor. FCS-405 will further knowledge of nutrition/wellness principles more applicable to students professional goals.

3. Will this change affect any education majors? No
